THE INSIDER'S ADVANTAGE

If you play to win...then there's plenty of winning you can do simply by knowing how the pros make gambling a fulltime gig!

“I’ll show you right now the secrets they use to place more winning sports wagers over and over again!”

Dear Sports Gambler,

Whether you wager a few bucks or a bundle on sports events, I’m going to assume you do it to win.

And to start winning more often...

I want you to know how professional gamblers play to win—how these guys always seem to take home the cash!

It starts by recognizing that the odds are always stacked

against the average gambler, that you are destined to lose...unless you know the inside information that it takes to win.

In this special report, I’ll show you how to change your betting strategies right now to win more often and make more money off sports bets.

In fact, I can show you how some guys make \$5,000 to \$7,000 on a weekend simply by wagering on sports

events.

This football season, I’m personally targeting to win more than \$200,000 from wagers I place!

My name is Jeff Gillis, president of pickthewin.com. Over the last 7 years, I’ve made my living knowing how to win at sports gambling! And there’s no magic in how it’s done.

We’re all piling up a mountain of cash and I can promise you, there is absolutely nothing stopping you from doing exactly the same thing.

You simply have to know the gambling game... but not like a sports fan!

That’s the idea behind pickthewin.com. This is a member-only service that gives gamblers like you unre-

SPORTS GAMBLERS WINNING SECRET #1

Winners know one thing that the average gambler completely misses. You can win a few games on luck, but you’ll lose most games on ignorance. Amateurs make the same mistakes over and over again. The money they bet is simply tossed on the table for the winners to take. Last year, losers put more than \$00,000,000,000 on the line with poorly thought out, emotional bets. The winning gambler knows where to find these weak plays, step in, and pick up some easy cash. **Pickthewin.com** helps expose those weak plays giving you an opportunity to get in on easy pickings.

stricted, 24/7 access to all the data we use to make smarter bets and win time and time again!

And as I explain how it's done, by the end of this report, I'm betting you'll want to sign on with us as a member too!

So, give me a few minutes to show you how we'll make it work every weekend this year.

I'll start off by revealing some closely-held secrets that reveal how to...

- Win more money every week during the football season!
- Pick the winning bet, and beat the line game after game!
- Avoid the sucker bets that casinos use to take your money!

SPORTS GAMBLERS WINNING SECRET #2

Most gamblers place their bets like a sports fan. They support their favorite team and pump up their game day excitement by putting a "few bucks" on the line. The winning gambler reads when these players are dominating a game, creating an opportunity to move in and make some easy money. By subscribing to **pickthewin.com**, you have ongoing access to the information that reveals where these winnings are most likely to be found.

SPORTS GAMBLERS WINNING SECRET #3

The most important determinants of any game's outcome are buried in details that most gamblers fail to recognize. The obvious factors that everyone analyzes are rarely out of balance in the odds. The imbalances, and thus the gambler's winning edge, can only be seen when key details are known in advance of the game. **Pickthewin.com** provides the details that professional gamblers, casinos and bookmakers depend on for winning.

- And yes, astonish your friends with the bets you win week after week!

I'll go so far as to suggest you could one day make a living simply by winning sports bets!

I know what ignorance and false pride costs. When I started out, I was losing my backside on crappy bets that I placed every week.

I couldn't figure why I kept struggling with my calls.

At the office, I was the

"go to guy" for sports trivia. I knew more about who was playing whom, which players were on a roll and which weren't...you probably know the drill.

Despite all that, I kept losing games and losing money. I was a great sports fan, but...

I was a lousy gambler!

I started to think I didn't have what it takes to win. But, I KNEW that guys were

(continued on page 4)

These guys may love the game...but that doesn't make them winning gamblers.

SPORTS GAMBLERS WINNING SECRET #4

Winning gamblers know how a game can be impacted by the inside knowledge the general sports fan never sees. At the same time that the bookmakers odds are manipulated to take the average gambler's money, the winning gambler recognizes how casinos create gaps that open opportunities for placing winning bets. You can learn more about how the game is played by the casinos and bookmakers through pickthewin.com.

(continued from page 3)

out there getting it right week after week.

I was determined to uncover their winning strategies and start using them as my own. What I ultimately learned was that...

Every winning gambler has a reliable, up-to-the minute track on inside sports information.

No, the "fix" is NOT in. That's not what I'm talking about.

And I'm not talking about the slick grocery store sports magazines that I read cover to cover...and did nothing to prevent me from losing my money!

I'm talking about getting the kind of information that showed me exactly when and how to place smarter bets.

I'm talking about detailed, inside information about: teams, players, coaches, field conditions, weather, stadium records, injury reports, egos, payroll...using ALL of it to...

Gain the edge that winners use to stay on the money side of the wager.

Not only that...and this is the really important part...I'm talking about understanding how all this stuff comes together to affect the bets you place on the games they play!

That's when I made a bold change in how I approached sports wagering.

I decided to get my hands

on the same information that the casinos and bookmakers use and figure out how to gamble from their advantage...using the insider's view. That's when I realized I had to...

Stop thinking like a sports fan and think more like a winning gambler.

One thing became very clear. To think like a winner, I needed the same sports data that the casinos and the bookmakers like to hide from public view.

Anyone can get it, if they know where to go. But there's one big problem. A top notch sports data service like the casinos use is expensive... the best ones can cost \$25,000 to \$35,000 a year!

And I wanted to get data

Q&As from pickthewin.com subscribers

"At the beginning of the week, one team may be a 6-1/2-point favorite in a game. By Thursday or Friday, they're an 8-1/2-point favorite. Did the other team become that bad that quickly?"

At pickthewin.com, we hear this question a lot. But contrary to what some people believe, lines or point spreads have only a little to do with either team's performance. When the line is set, it's because linemakers and handicappers have determined that one team (the favorite) is stronger or superior to the other (the underdog).

Because people are more likely to wager on the favorite, linemakers try to even the betting by making the underdog more appealing. If sports books and casinos find that bettors are still not wagering evenly, they add more points in the underdog's favor until the betting is more or less equal. Bookmakers minimize their risk by evening out the wagers.

Oftentimes, the spreads lag the gaming action, or the incentives to bet on one team or the other creates a winning advantage for the informed gambler. Pickthewin.com helps you spot these advantages to place better bets.

from at least a half-dozen!

That's when I hit on the idea to create a website where guys can get the very best inside information, yet spread the cost with others for a fraction of what casinos pay.

So, I ponied up the cash to get started and created the website, **pickthewin.com**. This is a site where, for a few bucks a week, you can log on for the hottest picks and the inside action on all the major sports events, just about everything you would need to know as a winning sports gambler and...

SPORTS GAMBLERS WINNING SECRET #5

There is no guesswork or luck in sports gambling. It's all about knowing more than the next guy and placing your wagers to take his money. That is the unvarnished fact. It means that each weekend, you either take the money or give it away. Winners simply know more about their game than the losers and over the long-haul, that's the deciding edge. Information is your edge and it's all there, with commentary and interpretation on **pickthewin.com**.

Put an end to bad bets and start taking home more winnings every time you gamble.

No question, it was the right decision for me. My bets started improving immediately.

It was helping others too because thousands of guys out there are using inside information to win more often.

Everything you need to bet smarter than the next guy

(continued on page 7)

How inside information lets the casinos win more often...

and how pickthewin.com could do the same for you.

You'll find that almost every newspaper sports section publishes weekly lines for upcoming games.

Most list favorites and underdogs, as well as point spreads for each matchup. Others include Money Line wagers, showing you the amount of money you must wager to win a set amount.

But just where does all this information come from? Who decides what team is better and by how much? The answer is handicappers.

Casinos hire these professionals to analyze detailed inside information and help set the odds. That's why handicappers know more about team performance than most professional scouts do. They examine every small detail that can affect the outcome of the final score...and their employers' chance for winning.

Handicappers also examine and analyze the intangibles that you won't find in published stats, such things as:

- Heart – the passion of a star performer that you just can't measure
- Streaks – who's hot and who's not that week

- Team and player rivalries.
- Player performance in key situations – is there a 'superstar' on the team who, alone, could affect the outcome of the game?

All this inside information that never makes it to the news lets the linemakers make a smarter decision on rating the game. The casinos make money when they are right...and they are right more often than not. And of course, the lines are set to favor the casino, not to favor you.

When you become a member at pickthewin.com, you can play the game with the inside information that gives you the winner's advantage too. Join us today with a no-risk guarantee.

Play to Win...Bet to Win
12 Insider Secrets for Winning Sports Wagers
A \$19.95 value! See pages 14-15 for details...

Information is everything to the winning gambler!

Handicappers and oddsmakers make their money on what they know that others don't. So what any reasonable sports fan would wonder, "What could I do if I could get this information for myself?"

Well, did you know that many of the top handicappers in the industry actually make the information they supply to the casinos available to the public?

At a price, of course. A very hefty price. That's where pickthewin.com comes in.

We pay that hefty price, just like the casinos do. We then make it available to gamblers like you.

Pickthewin.com subscribes to the services offered by the top handicappers. But we go one step further than the casinos. We read the reports from a variety of analysts, each working for different organizations in the industry.

We spot trends, examine patterns, compare contradictory information and make recommendations for you. Not based on one analysis, or even three or four, but based on at least six reports compiled by the best and most trusted analysts in the gaming industry.

We also compare the analysts to our own in-house handicappers and information providers.

- Each day, we list our recommendations on pickthewin.com for you to access anytime, from any online computer.
- Information is always fresh, up to the minute, and as accurate as anything you'll find anywhere.
- Coverage includes just about every sports event you can wager on, game by game, from college ball to pro hockey, from exhibition season to the finals.

You get the highlights and conclusions of the top handicappers in the industry, and you also have something that even they don't have. You get access to our pickthewin.com sports statistics database. We've built this database over the years, comparing thousands and thousands of matchups. It's an invaluable information resource that's at your fingertips 24/7!

Receive this Special Report FREE with Best Deal Membership! **Linesmakers, Oddsmakers, Bookies and More...How Big Money Is Won and Lost in Sports Gambling.** A \$19.95 value! See pages 14-15 for details...

(continued from page 5)

comes down to one thing...*detailed inside information.*

I'm not talking about last season's team records, player stats, starting roster or anything else that you can readily find in the sports pages.

I'm talking about details that include data you may never even have considered before, maybe didn't even know existed!

Let me assure you, this data

exists in abundance and the guys that are winning are all over it.

Think you have all the sports news you need? Think again!

If you are just a sports fan, then almost any grocery-store publication will do fine to keep up with your sports news.

But if you are a sports gambler...

I'm going to make you smart enough to pick the better bet a majority of the time...and start winning more than you lose.

Notice I didn't say the "pick better team" or "win every time."

Even winning gamblers lose bets. But winning gamblers **DON'T LOSE MONEY!**

They don't pick the better team...they pick the better bet.

Playing the better team can be a sucker's bet. What you must learn is how to place wagers with the knowledge and understanding that casinos use to take millions of dollars every weekend from gamblers who get it wrong.

Even if you wager only a few dollars every once in a while... I assume that this knowledge will be valuable to you. After all...

You do not wager your money on a sports event with the intention to lose!

How Casinos win

Here's how pro gamblers take advantage of their inside knowledge to pluck money from the betting public and line their pockets with big winnings!

They start by understanding how the casinos are making money at this game. And

keep in mind, except on very rare occasions, casinos always win! And they do that by controlling the odds.

Let me add some detail to that.

Casinos are not your friends, and they don't play on a level field with anyone.

Casinos make money by *using inside information to manipulate odds*, not by making bets.

This means that they're not in business to wager, they're in the business of stacking the odds against you, their customers.

If you think this is obvious, good, you're on the right track.

Enormous profits are made by manipulating the odds. It's done every day as millions of fans pour money into the

SPORTS GAMBLERS WINNING SECRET #6

Being a sports fan is one thing...being a winning gambler is something else again! A winning gambler knows the difference and bets objectively, not emotionally. The only way to consistently bet objectively is to have more information than the next guy. Get the inside information that affects a game and gain your edge on that advantage. Eliminate emotion from your gambling by subscribing to pickthewin.com and hone in on the gambler's edge.

casinos' and bookmakers' gambling machine.

And the fans pour that money into the machine using information that they read in all the usual sports publications.

You need only turn to your local news sports pages to find how worthless that can be to a winning gambler.

Here's the kicker. More often than not, the linemakers who set the spreads and the handicappers that follow them are tied in with the casinos. These guys are not independent. They don't serve their readers. They serve their masters, the casinos.

Linemakers analyze all the teams and players every day of the week. They set the lines and open or close the spreads, right up to gametime. In

(continued on page 8)

Q&As from pickthewin.com subscribers

"Is it important to know the lingo when I'm placing a bet?"

Sports wagering has evolved a language of its own. Betting a 'buck' means you have \$100 on the line. A 'dime' becomes \$1,000. A hook means half a point. And 'juice' has nothing to do with breakfast. You don't need to know any of it.

At pickthewin.com, we don't hide behind the language. We just say it in plain English. We're in the business to help you win. We read through the reports by the most respected linemakers and handicappers in the industry and give you our informed opinion on which way to bet. If we ever use an unfamiliar term or discuss an idea that you are not familiar with, all you have to do is ask. We'll make sure you get the answer. .

Subscribe now with one of our outstanding offers on page 15 of this report. PLUS, when you subscribe within the next 10 days, your name will be entered into a draw to WIN A TRIP FOR 2 TO LAS VEGAS. Turn to page 15 to order now!

(continued from page 7)

other words, they set the odds that fans read in the paper!

And they do it with one purpose foremost...to help the casinos keep their winning edge.

We do the same. We give our Members the winning

edge.

My staff and I subscribe to the reports and newsletters written by the top handicappers in the business. These are the same guys that the casinos follow.

We have some of the smartest guys in the industry working here, collecting

information from their own sources as well.

We take the time to evaluate all of it, including the top handicapper observations, their tips and their secrets. We then make the info and picks available to you – at a fraction of what it would cost you any other way.

Pickthewin.com vs. tout services: what's the difference

You may have seen those tout services advertised on late-night cable TV. So what makes pickthewin.com any different?

Well, the one main difference, really, is integrity. Many of those tout services you see on television disguise their commercials as news programming. They hope to fool you by making you think they're bringing you breakthrough reporting. They even offer you free picks – all you have to do is call in and listen.

Many of these 'scam-dicappers' offer 'locks' or sure-things to their viewers, with the assumption that when you win, you'll subscribe to their service. It's funny, though, how half their callers often get one team as the 'lock of the week' while the other half of callers get the opposing team.

It's really not difficult to increase your winning odds with half your audience.

At pickthewin.com, however, we actually work for our Members.

We do the analysis based on information provided by the best in the industry, and we give you our picks. And everyone gets the same picks – we don't split them 50/50.

We also don't favor one team over another just because Vegas wants us to. – Pickthewin.com is not affiliated with any other website, Sports Books or casino. We're completely unbiased about who supplies or gets our information.

Pickthewin.com: designed for novices and seasoned bettors alike

You may never have made a bet at a Sports Book in your life. Or maybe you've been placing bets on games for years.

Whatever your level of expertise, pickthewin.com is ideal. Because pickthewin.com

isn't a service that is designed for any one specific group of wagerers. So unless you're in Vegas doing nothing but placing bets for a living, pickthewin.com is a valuable resource for you.

For the new gamer, we give you the best picks for every game of the season, based on detailed analysis of information from the top handicappers in the industry – the same ones who give the casinos their info.

Reduce the edge that casinos have worked hard to build.

Pickthewin.com also gives you access to a valuable database service that compiles information from the industry leaders – the same ones that supply the top Sports Books in the country and on the Internet. Besides schedules, standings and scoreboards, this database offers you:

- live lines, scores and info

We're sports gamblers that know what you need to win!

SPORTS GAMBLERS WINNING SECRET #7

Don't bet too early. In fact, the best time to make any bet is at the very last minute! Factors change minute by minute that affect the possible outcome of a game. The teams are in no hurry to make that information public either. However, there are "leak" channels that feed the handicappers the kind of information they need to tweak the spreads. Most gamblers miss these changes and lose as a result. **Pickthewin.com** taps those leak channels for you, making sure that you never bet at a disadvantage.

That's why you should not make another bet of any kind without trying us at least once.

Q&As from pickthewin.com subscribers

“When is the best time to place my wager – early in the week, or just before game time?”

While early lines may look good, we at Pickthewin.com believe it's always best to wait. There are so many factors that could affect a matchup that are just unknown at the beginning of the week: player injuries reports, severe weather conditions, etc.

Pickthewin.com analyzes these factors throughout the week as reported by the most respected handicappers in the industry. You'll hear about all their changes as soon as we do.

At pickthewin.com, you always have continuous access to the most current, insightful information anywhere.

Whom can you trust?

How Pickthewin.com can help you spot betting industry scammers, and how to avoid them

It probably shouldn't come as a great shock to you that the industry of sports betting has its share of scams and disreputable organizations. After all, real sports wagering is only legal in certain parts of the US, and most of the online casinos that want your money are off-shore corporations that work outside of the jurisdiction of the US legal system.

So, where can you go to wager without fear of unnecessarily risking your hard-earned money?

At **Pickthewin.com**, we analyze the industry in a special section on our website, giving you valuable tips and information to help you wager safely. You'll find insider info, including:

- Tips for selecting a Sports Books
- Recommended Sports Books
- Industry blacklists - the sites to avoid
- Who pays on time, and who's slow to pay
- The safest countries to place your bet in
- Gaming commissions what they can do for you
- The top scams in the industry, and how to spot them

Pickthewin.com also goes into detail about how to wager, and where to go to wager safely.

We examine topics such as the misleading bonus offers that casinos and Sports Books make to get you in their doors or onto their site.

We compare bonus offers from reputable sites and show you the industry averages.

Remember: if it looks too good to be true, it probably is.

The 10 Best Places to Bet on Sports...and 4 Sites to Avoid Like the Plague!

Helping MEMBERS Win!

10 Decisive Factors Handicappers
Look At Before Game Time

Handicappers are information sponges. They soak up as much data as they possibly can, right up until the last possible second before game time, to determine the best odds. Here are my top 10 factors used to set the lines for a football game:

1. Performance in weather conditions
2. Performance in outdoor stadiums vs. indoor stadiums
3. Home and away records for both teams
4. Team vs. team outcomes from the past
5. Quarterback performance
6. Offensive and defensive matchups:
7. Offensive linemen vs. defensive linemen
8. Running and passing games vs. defense
9. Defense vs. passing and running games
10. Standout or 'star' players on each team

PLUS, there are all the intangibles – the things that don't make sense, but really can affect scores, like player superstitions, player and coaching staff attitudes leading up to the games, etc. And that's just one pro sport. Imagine trying to manage this kind of information for 10 different sports leagues throughout the year!

LEARN FROM THE BEST

At pickthewin.com, you have access to the most up-to-date, informed, insightful, and winning information anywhere. Find out how to order one of our outstanding Membership package on page 15 of this report.

Pickthewin.com: your best source for premium picks

At pickthewin.com, my research staff scours every top source—from reports and newsletters from the best handicappers in the business to our own extensive database of player and team stats.

My team of industry experts compiles and analyzes all the information to create the ultimate picks for you each and every week.

These sports fans have one thing in common that gives you a winning edge every time you place a sports bet...

...IF YOU KNOW HOW TO PLAY IT!

Yes, they know their sports. Yes, they want their home team to win.

But in the end... they're all terrible gamblers!

Give them the credit they deserve for loving the game, but don't give them your money!

Instead, help yourself to the money they're losing over and over again!

In this pre-season special report, you'll learn the important secrets that successful gamblers use to wager and

win more often...how they accumulate winnings at the expense of exuberant sports fans who know the game...but lose the wager!

If you know why these fans bet their money and why they consistently lose (oftentimes willingly!)...then you'll step in line with the world's best, most successful sports gamblers and earn your fair share of the winnings!

See inside for all the exciting facts that can make you a world-class sports gambling winner!

Jeff Gillis is one of America's top sports insiders, gaming professionals, president and founder of pickthewin.com Because you are sports fan, you are receiving this special report, compliments of Jeff Gillis, with the information you need to become a more successful gambling prior to the start of this year's NFL season.
